
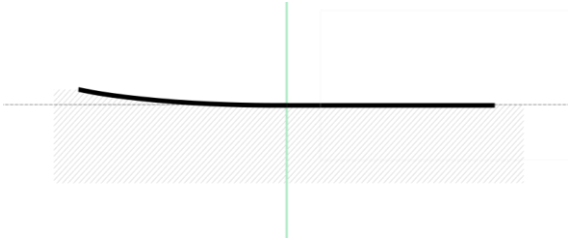
LINEAR AND ORBITAL MILLING

Operation.
We are first users of a wide range of portable milling machine, to restore several kind of surface or kind of groove.

Add-on.
In order to reach the highest performance it is possible to apply a laser tracker measurement system to check the planarity preliminarily, during and after the milling process.
Available gantry configuration for square milling.

Working Range..
Linear: up to 6000 mm
Orbital: up to 3000mm

Customization..
Available.
Any application, which covers longer distances, or particular conditions, can be analyzed by our R&D Dpt. for a feasibility check.



NOTE

24/7 | Worldwide
Site Machining

We perform on-site machining and take care of all those interventions aimed at the restoring of the geometry of mechanical components. In addition to being first-users of a wide range of machine tools, we are resellers and consultants too. Our experience is mostly related to the Oil & Gas Industry, but we easily manage to apply our services in any kind of industry.
